

**you need:**

- bean
- 1–3 dice (adapt a 1–6 dice)
- counters

# Missing numbers for 2 players

Put the bean on the dog.

**When it's your turn**

Roll the dice and say the number.

Move the bean that many steps.

If you land on a circle where the number is missing, say what it is and take a counter.

**The end of the game**

Go on until both players have collected at least 10 counters.
