

you need:

- paper clip and pencil
- counters in two colours
- 10 'prizes'

Odds and evens

 for 2 players**When it's your turn**

Hold the paper clip in the centre of the circle with the pencil, and spin it.

Say whether you get 'odd' or 'even'.

If it's 'odd', put a counter of your colour on an odd number.

If it's 'even' put the counter on an even number.

The end of the game

When one person gets three of their counters in a line, they win a prize.

Remove those three counters.

Go on playing until one player has won five prizes.

1	2	3	4
5	6	7	8
9	10	11	12
13	14	15	16
