

# Lily Pads!

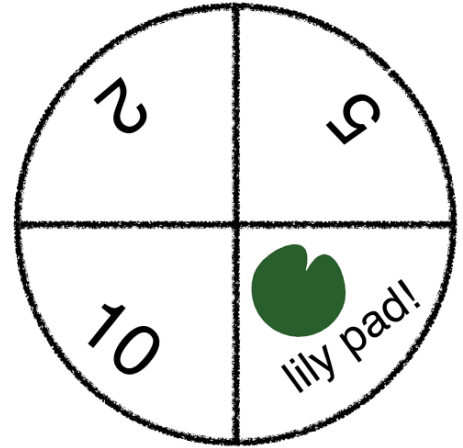

## A "Counting By" Game

Spin the spinner.

Find a number you say when you count by that number on the playing board. Cover that lily pad with a counter in your colour. Spin a lily pad and you can take ANY number...

Get 3 in a row in your colour – and you win!

*For example, if you spin a 2, you can cover the 2, the 8, the 10 or even the 20, because you say all of these numbers when you count by 2. You cannot cover the 5, since you do not say 5 when you count by 2.*

2	5	25	40	10
15	4	20	35	6
30	10	8	12	20
14	6	4	5	30
