

# Three in a Line

## Subtracting hundreds, tens and ones

**How to Play** – Put one counter the **START** space on the wheel. Following the arrows, Player 1 moves one space or 2 spaces, and performs the operation indicated. Player 1 puts a counter in their colour on the answer in the grid below. Player 2 now **continues** to move around the wheel, moving either one space or 2 spaces, and covers their answer in their colour. Three in a line in a colour wins!
